

**Nanocourse Announcement**

**Developmental Mechanisms  
of Evolutionary Change**

*Thursday, February 5th*

*1-4:30pm*

*Harvard Medical School, Armenise  
Amphitheater*

Arkhat Abzhnov

Elena Kramer

Cassandra Extavour

Are you curious about the old-new science of Evo-Devo? Do you wonder how a combination of two disciplines, evolutionary biology and developmental biology, can contribute to understanding the laws of Nature? This course will look at the way the mechanisms of development have been influenced by evolutionary forces and how understanding developmental genetics can help us understand evolutionary concepts.
